# How can I find Little Free Libraries near me?

About Little Free Library · https://littlefreelibrary.org/docs/how-can-i-find-libraries-near-me/

Use Little Free Library's world map to find a library near you! You can find the map on our website or use the Little Free Library mobile application.

If you find a library and it is not registered, please ask the steward to visit our website and register their library. If you're using our mobile app, you can also save and submit unregistered or unmapped locations to Little Free Library staff for follow-up.
