Does a Little Free Library have to be outdoors?

Start a Little Free Library · https://littlefreelibrary.org/docs/does-a-little-free-library-have-to-be-outdoors/

Nope. We have no rules about where you may install a little library, but be sure to check with the property owner before installing one wherever you please. Many libraries are outdoors, but yours could be a bookcase in a coffee shop, a wicker basket in an office, or a cute wooden box in the lobby of your apartment building. Watch the video below for more information on where to install your library and zoning regulations.
