How do I view my Favorites?

All Mobile App Features · https://littlefreelibrary.org/docs/how-do-i-view-my-favorites/

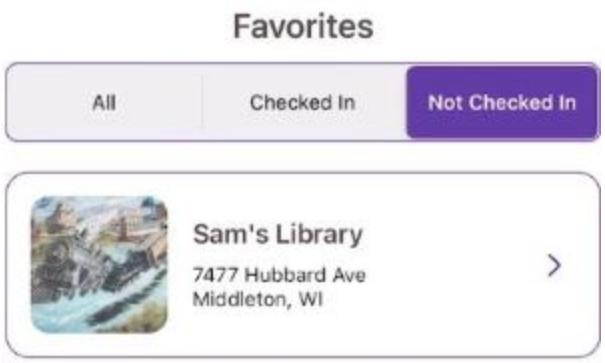

*Note: You must have an account to access the **Favorites** feature in the app. Learn how to set up a free account.*

Click the heart icon in the app's main menu at the bottom of your screen. That will pull up your **Favorites** list. By default, you will see all of your **Favorites**.

Use the toggle button at the top of the list to filter the list. You can view **Favorites** that you have checked in to or **Favorites** that you have not checked in to. This is an easy way to see which of your favorited Little Free Libraries you have visited and which ones you have not.
