There’s a library in my area that’s not on your map, what do I do?

About Little Free Library · https://littlefreelibrary.org/docs/theres-a-library-in-my-area-thats-not-on-your-map-what-do-i-do/

If you find a library and it is not listed on the Little Free Library world map, then it may not be registered with our organization. We may not know it exists. Approach the nearest home or business and ask to talk the library caretaker. Encourage them to register and get an official charter sign and number, or to contact us if they cannot afford the one-time cost of registration.

If you use the free Little Free Library mobile app, you can also save and submit unregistered or unmapped locations to Little Free Library staff for follow-up.
