Why are there little libraries in my neighborhood that aren’t on the map?

About Little Free Library · https://littlefreelibrary.org/docs/why-are-there-little-libraries-in-my-neighborhood-that-arent-on-the-map/

Little Free Library stewards must choose to share their locations on the Little Free Library world map, which is available through our mobile app and on our website. Some stewards do not wish to share their locations, and therefore are not listed. A book exchange must also be registered with an official charter sign and number in order to be displayed on the world map. If a book exchange is not registered, then it cannot be displayed on the map.
