# Where can I find a Little Free Library’s story?

Start by tapping on the library's pin on the map. Then, tap the **i** in the pop-up to view more information about that library. You are now viewing the **Library Detail Screen**.

Next to the library image, you will see the **Library Story**. If the story is too long to completely display on this screen, you will see a **Read More** link. Tap that link to open a new screen where you can read the entire **Library Story**.

# Story

This library was designed and built by a good friend, who is a custom cabinet maker. He spent over 40 hours on the project.

Originally, it was in our front yard in Cross Plains, Wisconsin but when we moved to Middleton it came with us. We just couldn't leave it behind!

Our neighborhood is comprised of 61 condominiums located on a private street. It gets used constantly and the neighbor hood really appreciates having it.
