Why do I see a Location Hint for some libraries?

All Mobile App Features · https://littlefreelibrary.org/docs/why-do-i-see-a-location-hint-for-some-libraries/

The **Location Hint** is an optional feature that the Little Free Library volunteer steward can choose to enable. A library will display a **Location Hint** if a steward has enabled that feature. The **Location Hint** provides tips to find a particular little library.

For example, if a library is inside a coffee shop or around the back of a building, the **Location Hint** is where a steward can share that information with potential visitors.
